RELEASE OF INFORMATION

This Contract with the Jet Propulsion Laboratory (JPL) constitutes a subcontract under a prime contract between the California Institute of Technology and the National Aeronautics and Space Administration (NASA). It is NASA's policy to provide the widest practical dissemination of information on all of its activities. Since 90% of NASA's research and development effort is performed by private industry, contractors and subcontractors have played a large role in this process.

In accordance with this policy, the Contractor may want to issue press releases or plan publicity and advertising from time to time, and the Contractor will be expected to respond to queries from information media.

Close coordination in all of these matters is required, and JPL requires that all materials (e.g., news and photo releases, exhibit copy, motion picture scripts, advertising copy) directly related to the Contractor's work with and for JPL be reviewed by JPL for technical accuracy prior to issuance or use.

To expedite this review, the Contractor shall send the materials to the JPL Public Affairs Office, mail stop 186-120, stating the Contractor's deadlines and referencing this Contract number.

In the event this Contract is a cost-reimbursement type contract, review by JPL shall not constitute approval for reimbursement of expenditures made in connection with publicity or advertising releases. Any such expenditures remain subject to applicable cost principles.

Nothing contained herein shall be deemed to change existing requirements relating to the release of classified information.
