

Dated: April 19, 2002

Subject: Addendum No. 1 to Request for Proposal (RFP) No. JSL-549482-1 dated April 12, 2002 for Mars Reconnaissance Orbiter (MRO) Mission Electra Payload Ultra Stable Oscillator (USO)

Subject Addendum is issued to notify the proposers that the following documents have been updated:

- (1) Exhibit I, Applicable and Controlling Documents, dated April 18, 2002, identifies a reduced list of Applicable and Controlling Documents.
- (2) Exhibit III, Functional, Development and Assembly Testing Requirements Document, dated April 18, 2002, incorporates revisions noted on page 3 of the Exhibit.
- (3) Specimen Contract, dated April 18, 2002, shows changes to Article 1, paragraph 2.0, which reflects the latest revision dates of Exhibits I and III. There are no other changes to the Specimen Contract.

A CD-ROM containing the JPL applicable documents listed in Exhibit I will be provided to proposers within the next two (2) working days via overnight mail.
