

Addendum No. 5 to Solicitation No. JYC-572383

June 17, 2003

Except as specifically modified herein, this solicitation remains unchanged. Proposers are reminded that receipt of this Addendum must be acknowledged on Attachment A-1 or A-5 to the solicitation.

Proposers are reminded that the issuance of any subcontract resulting from this solicitation is subject to the Terms and Conditions of JPL's Prime Contract with NASA.

1. The following question and answer is provided to make a clarification to this Solicitation:

Question 1:

Referencing General Instructions, paragraph 2.1.4.9, "Current and Pending Support" of the Solicitation Instructions:

"Briefly describe any current or planned sources of support that will be contributing to the proposed technology activity. Identify the ongoing and pending projects, sponsoring organization, relevance to the proposed technology, and the resources each organization will contribute or share."

Does JPL want proposers to list all current and pending support of all funded grants and pending proposals of each person involved in the proposal, or does JPL just want a list of all current and pending support that are directly contributing funds to the research outlined in the proposal?

Answer 1:

JPL just wants a list of all current and pending support that are directly contributing funds to the research outlined in the proposal.
