

2019 NATIONAL SMALL BUSINESS WEEKMay 5–11

Small Businesses make a **BIG** difference at NASA!

Since NASA's inception more than 60 years ago, small businesses have been at the core of our innovation and our ability to achieve tremendous things on behalf of the American people and the world.

Together, we're going forward to the Moon, Mars, and beyond.

In FY18, NASA awarded nearly \$5.9 billion to Small Businesses between prime and subcontracting awards.

For more information about the NASA Office of Small Business Programs, go to https://osbp.nasa.gov.
