The Small Business Programs Office (SBPO) works to promote and integrate small businesses into the competitive base of subcontractors that support space exploration, scientific discovery and aeronautics research at JPL. The SBPO is committed to being a trusted NASA Small Business Advocate. Below are some of the outreach events we have attended in the past few months, as well as upcoming events.

Upcoming JPL Hosted Events

JPL Small Business Industry Awards
February 19, 2019
Small Business Industry Awards Fiscal Year 2018 Winners

Small Business Subcontractor of the Year - Far West Contractors Corporation

Thomas H. May Award - Safari Micro Government Solutions LLC

Small Business Advocate - Acquisition - Anne Yamamoto

Small Business Advocate - Non-Acquisition - Scott Premo

STAR Awards - Maria Sanchez
    Minh (Lindsey) Tran
    Cheryl Wysocki
The Space Foundation, in partnership with Minority Business Development Agency (MBDA), invites entrepreneurs and business leaders to explore new and emerging business opportunities with the Space Community. Business development and educational workshops are being held nationwide.

Companies face many challenges in growing their business—challenges that go beyond basic entrepreneurial obstacles to include product adoption, market forecasting, stakeholder communication, and business scalability. These one-day training workshops, hosted by the Space Foundation, will provide key insights into space commerce and will address the most common challenges companies face and help close the gap on the specific issues keeping you from growing and expanding your company.

Minority Businesses Register Here for Space Commerce Event

JPL Small Business Opportunity Fair
April 2, 2019
Small Business Opportunity Fair
Hosted by NASA/JPL, City of Pasadena, Pasadena Chamber of Commerce

April 2nd, 2019
Pasadena Conference Center

Exhibitors from Government agencies and large businesses will be available to discuss opportunities in their supply chain. Workshops and matchmaking will also be available at the event.

For more details, please contact smallbusiness.programsoffice@jpl.nasa.gov

Small Business Spotlight

RBT CONSTRUCTION

An 8(a), SDVOSB & HUBZone Certified Company

Ryan Tittsworth, President of RBT, began his career as an electrician in the United States Army. In 2009, Ryan opened RBT Electric, Inc. As time progressed, Ryan decided that he wanted to meet the demands of a growing federal clientele and he realized that in order to best do that, RBT needed to provide more than just electrical services. With electrical still at the core of the business, Ryan began operating RBT Construction, a division of RBT Electric, which provides a full suite of SRM services, including HVAC, roofing, flooring, remediation, emergency response and construction management. RBT began serving clients not only in California, but also in Colorado and Wyoming and other states throughout the continental U.S.

Currently, RBT Construction is performing an electrical replacement project at Schriever Air Force Base in Colorado Springs, a fire alarm upgrade project at the Naval Air Station North Island in Coronado, a mold remediation project at Buckley Air Force Base, a staff augmentation with diverse trades at the
new Veterans Affairs Medical Center in Aurora, Colorado, an electrical project at F. E. Warren Air Force Base as well as the replacement of a substation at Edwards Air Force Base.

RBT Construction was awarded the Small Business Contractor of the Year at Schriever Air Force Base in 2016, and continues to be recognized for its exemplary focus on client service, timely response, adherence to schedules and budgets and attention to detail.

RBT Electric maintains active California C-10 (electrical) and C-46 (solar) state licenses.

RBT Electric is certified by the State of California as a Disadvantaged Business Enterprise (DBE) and a Disabled Veteran Business Enterprise (DVBE).

Fully Licensed, Bondable & Insured

JPL Mission Highlight - JUNO
The JPL designed Juno Spacecraft, has currently been orbiting Jupiter studying beneath the dense atmosphere since July 4, 2016. The mission’s purpose is to reveal the planet’s formation and evolution through studying its magnetic fields and atmosphere composition. For Fiscal Year 2019, Juno plans to continue its research of Jupiter’s gravitational fields. On February 12, 2019, Juno plans to soar over the Great Red Spot to detect any gravitational differences between it and the rest of the planet. On April 6, 2019, the mission plans to use its microwave radiometer to collect data, which will then create 3D images of what is underneath Jupiter’s atmosphere.

Using NASA’s Eyes on the Solar System and simulated data from the Juno flight team, you can ride onboard the Juno spacecraft in real-time at any moment during the entire mission. NASA’s Eyes on the Solar System program is a Web-based tool to journey with NASA’s spacecraft through the solar system. The experience is available on a Mac or PC. NASA’s Eyes interactives require a one-time download of the app.

For more information on the Eyes on Juno module, Click here
Held in November, 2018 the Shop Small Saturday is an annual shopping tradition dedicated to supporting small businesses and celebrating communities across the country. Founded by American Express in 2010, Small Business Saturday is celebrated every year on the Saturday after Thanksgiving.

Currently, American Express provides materials for supporters and businesses year-round, in addition to offering ways for shoppers to stay engaged with the small businesses in the community.

Below the Small Business Programs Office and Acquisition employees participated in the annual "Shop Small" Saturday on November 24th, 2018.

Goldman Sachs 10,000 Small Businesses is a $500 million investment to help entrepreneurs create jobs and economic opportunity by providing them with greater access to education, financial capital and business support services. The 10,000 Small Businesses program currently operates in 30 markets in the U.S. through a network of more than 100 academic and community partners, and the program continues to expand on a
Subcontracting Module Information - NVDB

The subcontracting module is now available as a separate option for those registered for the NVDB. By joining the subcontracting module, prime contractors can find subcontracting partners. For firms looking for subcontracting opportunities, this module will provide a potential list of NASA partners. As with the regular NVDB, the subcontracting module is open to both large and small companies. Both current and new registrants must opt in to join the module.

After registering in the NVDB, log into your account, open “Manage My Vendor Record,” click on the new second tab, “Subcontractor Details,” and select “Yes” in the drop down menu to join. Fill in the capabilities text box.

Sign in at https://osbp.nasa.gov/vendor_database.html
