Supplier Sourcing Event: "Doing Business With JPL"

July 7, 2022

Jet Propulsion Laboratory
California Institute of Technology

Do you need a refresher course on how to compete for JPL opportunities as a small business? The Small Business Programs Office hosted an instructional webinar on how to effectively do business with JPL.

Hosted by Charles Bray, Manager of the JPL Small Business Programs Office, this course went over the SBPO website interface as well as how to optimize your submissions to become a more competitive applicant. Companies who attended the webinar were able to share their capabilities with the SBPO team and get guidance on possible next steps with JPL.

NASA James Webb Telescope's First Images

“Today, we present humanity with a groundbreaking new view of the cosmos from the James Webb Space Telescope – a view the world has never seen before. These images, including the deepest infrared view of our universe that has ever been taken, show us how Webb will help to uncover the answers to questions we don’t even yet know to ask;

questions that will help us better understand our universe and humanity's place within it." -NASA Administrator Bill Nelson.

Some images taken were from the telescope's Mid-Infrared Instrument, which JPL manages for NASA.
