

Potential Requirement: Hazardous Waste Removal in Southern California

Potential vendors: Please write “Hazardous Waste Removal in Southern California” in the subject line.

JPL is reviewing options concerning the following scope of work:

Scope & Description: Knowledge/experience in transport and disposal of the hazardous waste type that is generated at JPL.

Hazardous waste can pose a serious risk of safety, non-compliance, and insufficient completion of the task. It is crucial to have an experienced crew to meet the demands of working at a faster pace with larger volumes while staying in compliance with Title 40 CFR, Title 22 CCR hazardous waste requirements, and Title 49 CFR Department of Transportation requirements, and to make certain that it is done in a safe manner. Additionally, the risk of having any violation(s) could result in fines and up to possible shut-down of Lab operations.

NAICS Code: 541620

There is no commitment or guarantee on the part of JPL to move forward with an RFI or RFP at this time.
